

Rosalind's Revenge

for solo percussionist

Joel Matthys

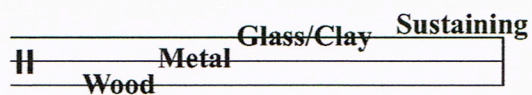

PERFORMANCE INSTRUCTIONS

1. The performer must acquire instruments to play. All instruments except the SUSTAINING instrument should have a short decay time and be playable with drum sticks or mallets. Found materials and junk are preferred over traditional percussion instruments. Gather instruments in the following categories:
 - a. METAL (2) – eg. mixing bowl, brake drum
 - b. WOOD (2) – eg. wood drum, board, wood block
 - c. GLASS or CLAY (2) – flower pot, fish bowl
 - d. SUSTAIN (1-4) – gong, whistle, siren—anything with sustain or a long decay
2. At designated points in the score, the performer should substitute one instrument in a category for another. For instance, just before letter C, the performer should switch from playing one METAL instrument to another. He or she may physically reconfigure the percussion setup, or may have the new instrument already in place.
3. The performer may play the same sustaining instrument throughout, or may play a different instrument each time it is cued. (I do suggest a coach's whistle as the sustaining instrument.)
4. All phrases should be played in a funk/rock style. Bar lines are used for ease of reading, and do not necessarily reflect the implied meter throughout.
